The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action. All rejections and objections not reiterated below are hereby withdrawn.

Election/Restrictions

Claims 12-15 are again withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/8/02.

This application contains claims 12-15 drawn to an invention nonelected without traverse in Paper No. 5. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Objections

Claim 11 is objected to because of the following informalities: the term --means-- should be inserted after "display" in the last line. It is clear from the record that a "display means" is intended, therefore the addition of this term is not a new limitation or new matter, but merely serves to provide greater clarity. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 1631

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 8 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a NEW MATTER rejection.

Claims 8 and 10 have been amended to recite "organ or tissue systems" which is new matter. Applicant points to page 22 of the originally filed specification for support for this limitation. However, page 22, in the last paragraph, discloses only specific organs for "individual's sites": stomach, large intestine, and heart. It is acknowledged that the last office action stated that the examples indicate that "individual's sites" may be "organ or tissue systems"; however, this was the examiner's attempt to summarize the examples to show that "individual's sites" were not defined. As the examiner attempted to show that even these phrases were unclear by a parenthetical question, her use of the terms was not an invitation to add specific phrases to the claims. As the amended phrase is not supported by the originally filed disclosure, claims 8 and 10 recites new matter and is rejected.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the amendment filed 7/26/04 is supported by the original specification on pages 13 and 22. Applicant's arguments filed 7/26/04 with regard to the prior art are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-7, 9, 11, and 16-17 are allowed. Claims 8 and 10 are rejected; claim 1 is objected to and claims 12-15 remain withdrawn.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
